EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bradley Ruben on 04-25-2005.

The application has been amended as follows:

In the claims:

Claim 1, line 5, before first recitation of "a" insert --wherein-- and after "segments" insert --are--;

Claim 1, line 7, before "said" insert --each--, delete "retractable", and after "segment" insert --being retractable and--;

Claim 1, line 18, change "(360°)" to --360°-- ;

Claim 6, line 23, change "(360°)" to --360°--.

2. The following is an examiner's statement of reasons for allowance: Regarding claim 1, Brandon et al. (US#5810365) in view of Bagepalli et al. (US#6030175) discloses all of the limitations except for the inner and outer faces of the segment and the T-shaped extension spanning opposing common side ends such that at least one end of the brush seal extends past one of the common side ends. Moreover, as accurately argued by the applicant, Bagepalli does not disclose this common end as Fig. 3 shows the brush does not extend past the end defined by

Art Unit: 3677

extension 48, and Figs. 2 and 4 show the brush does not extend past the end defined by 58 and 62. It would not have been obvious to one of ordinary skill in the art to further modify Brandon in view of Bagepalli such that the inner and outer faces of the segment and the T-shaped extension spanned opposing common side ends such that at least one end of the brush seal extended past one of the common side ends. Claim 6 includes the above allowable subject matter and is therefore allowable for at least the same reason(s).

3. Skinner et al. (US#5749584) discloses in col. 6, lines 51-67, retrofitting a brush seal to a retractable labyrinth seal (Fig. 9) is known, however Skinner also discloses the brush seal will not extend a continuous 360 degrees around the shaft (col. 7, lines 1-5) as claimed by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William L. Miller whose telephone number is (571) 272-7068. The examiner can normally be reached on Tuesday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann can be reached on 703 306 4115. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
